

THE HOME OF METAL GUTTERING

The UK's number one stockist of metal rainwater and drainage products for new build, custom build, conservation, renovation and refurbishment.

CASE STUDY

Galvanised Steel

Grey Aluminium Galvanised Steel - Christchurch, Dorset

PROJECT NAME:

Grey Aluminium Galvanised Steel - Christchurch, Dorset

LOCATION:

Christchurch, Dorset

MATERIAL & PROFILE:

125mm Grey Aluminium Colour Coated Galvanised Steel Half Round Gutter

80mm Grey Aluminium Galvanised Steel Downpipe

FINISH:

Robust Grey Aluminium RAL 9007 colour coating

On this project K J Kilford Carpentry Contractors installed the Grey Aluminium colour coated Galvanised Steel guttering and downpipes.

The homeowner said: *"The product is excellent and we are so pleased. Exactly the modern design we were looking for. We hope to submit the project to various home building and renovating magazines in due course."*

The installer said: *"The specification of steel was client led. I'd had only had very limited experience with metal previously as I usually fit plastic, but I found the installation easy and I did think the materials were very well made.*

I would use it again.
