METER BOXES

READY TO FIT STRAIGHT OUT-OF-THE-BOX

Timloc Building Products is one of the UK's leading manufacturers of building products for the residential market. Based in Howden, East Yorkshire, we design, manufacture and supply building product solutions from ground level right up to the roof ridge. Trust Timloc to deliver with our unrivalled NEXT DAY delivery service with a low carriage paid order value of just £100 to branch or £150 direct to site.

Meter Boxes by Timloc are available for domestic use and include both gas and electric, as well as offering both surface mounted and recessed varieties. Timloc Meter Boxes are manufactured from hot-pressed, glass-reinforced plastic, making them hard-wearing and weather-resistant.

- Range of spare and replacement parts available
- Compliant with all relevant Building Regulations
- Easy to clean and can be painted
- Available on next day delivery

Timloc Building Products is a **carbon neutral manufacturer**

At Timloc, we manufacture and supply sustainable building products designed to be integrated into the fabric of a building from ground level right up to the roof ridge. 75% of the products we manufacture are made from recycled materials and all of our products are made to last.

OUR JOURNEY TO CARBON NEUTRALITY

In 2021, Timloc became the **first building products manufacturer in the UK to achieve a carbon neutral status** after implementing various green initiatives to reduce and offset our carbon emissions to zero. 100% of our electricity is now generated from renewable energy sources, electric cars have been added to our fleet, and we have invested heavily in energy-efficient machinery, all of which contribute to our carbon neutral status.

Approximately 70% of our packaging is produced from recycled materials and **100% of our packaging is recyclable**.

All Timloc products experience a rigorous testing process prior to launch to ensure we only supply the highest quality products to market. The recycled materials we use originate from a variety of sources including plastic bottles, plastic trays and plastic car parts, such as bumpers and dashboards. The raw material produced as a result of the recycling process is robust, versatile, and environmentally friendly.

Trust Timloc to know the score...
